 Response Rate = 100%

1. Background Information:

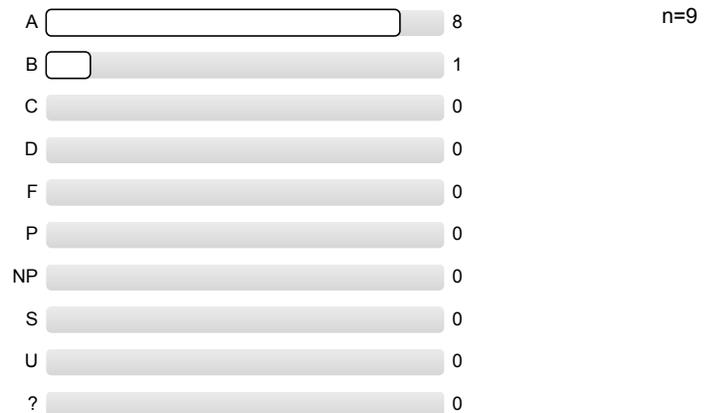

1.1) Year in School:

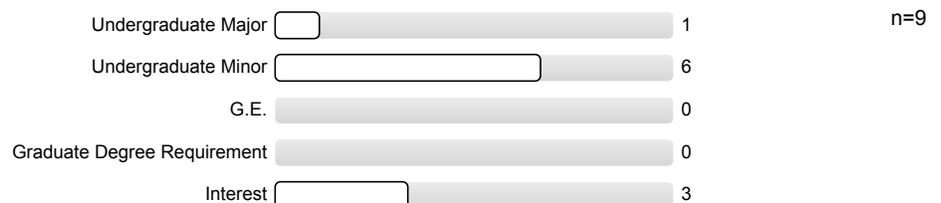

1.2) UCLA GPA:

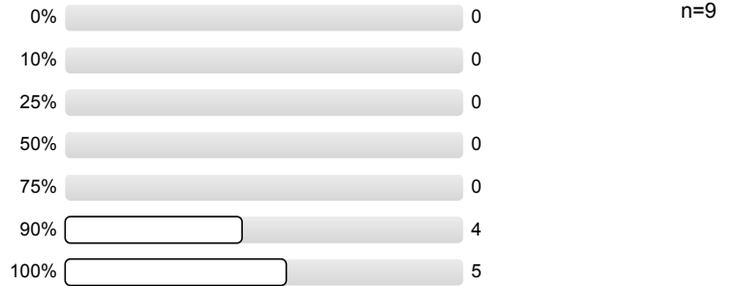

1.3) Expected Grade:

1.4) Why did you take this course? (Mark all that apply)

1.5) What percentage of class sessions did you attend?

1.6) How much effort did you devote to this course?

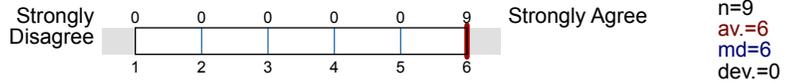

2. To What Extent Do You Agree That:

2.1) This instructor conveyed clear learning goals for this course.

2.2) The course activities were structured and presented in a way that helped me to learn.

(Course activities include, but are not limited to, lecture, discussion, office hours, dialogue, group work, lab work, field work, problem solving, reading assignments, use of mixed-media, role play, and real-world applications.)

2.3) The required work enabled me to demonstrate my learning.

(Required work includes, but is not limited to, exams, quizzes, papers, homework, group projects, student presentations, other types of creative work, and class participation.)

2.4) Please give the reasons for your ratings in response to the above three prompts.

(For example, consider explaining which course activities were most and least valuable, and/or discussing the various types of required work.)

- All expectations were very clear and updated often to reflect any changes. The activities and assignments were all very helpful to learning and structured very well.
- All of the assignments were there to help me learn
- Desi was a very clear communicator when it came to the expectations for this course. She was also a very clear communicator in general when it came to teaching class concepts, sharing our agenda for

the quarter, upcoming assignments, and more. The required work was never busy work; it was always assignments and tasks that would improve our development as teaching artists.

- Every second I spend with Dr. Desi, I learn more and more.
- I found this class to be helpful overall in many ways and aspects
- Professor Desi was always clear about the goals for the course and extensively explained the goals behind the activities that we did in each session. She made the course activities extremely engaging for us to better understand what we would want as students to then be able to provide as teachers. The required work absolutely demonstrated my learning as we would put into practice what we had learned with the class.
- This class is very flexible when allowing us to demonstrate our skills, and the teacher is really friendly and helpful.

2.5) In this course, my active engagement in the learning process was encouraged.

2.6) The instructor fostered a welcoming environment for every student to learn and participate.

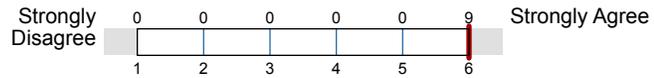

2.7) Please give the reasons for your ratings in response to the above two prompts.

(For example, consider commenting on the extent to which you were encouraged to ask questions and engage in dialogue or other group activities that gave you the opportunity to reflect on what you were learning.)

- Desi modeled an excellent teaching persona for all of her students. She always came with a positive attitude, brought encouragement and excitement, and met us where we were at. She loved whenever we'd ask questions so it made me comfortable doing so. When we were on Zoom, she provided ways for us to engage in the class (such as through Padlet) to share ideas with the class.
- I always felt welcome in every way !!!
- I always felt very welcomed and comfortable in this space, and I felt very engaged and supported.
- I feel at peace when I am in Desi's class. Best thing that has ever happened to me.
- Professor Desi is the warmest and most understanding person I have ever met. She always made the environment feel comfortable for us to ask questions without being ridiculed. We often partook in activities that made us act a little silly but because she would often go first it established a safe environment to engage with the content and the people as much as possible.
- The teacher provide us with a lot of chance of participation, and in all kind of ways to make us feel comfortable.

- 2.8) This course challenged me to develop new abilities and perspectives or broaden existing ones.

(For example, you might consider such abilities as critical or creative thinking, reasoning, open-ended problem solving, or new ways of seeing the world.)

- 2.9) Please give the reasons for your rating in response to the above prompt.

- I have come out of this course with an evolved understanding of art. Previously I believed that I couldn't be an artist because I just wasn't "good" at it. Which is absolutely wrong, I can and am an artist. There don't need to be very specific guidelines for me or others to follow for art to be art. It took me almost 20 years to fully realize this but I know it will stick with me and that I will share this with any students or really anyone who might have similar sentiments to how I did previous to this course.
- I was able to push myself beyond the limits
- This class allowed me to acquire the socialisation skills I was never able to develop.
- This course definitely pushed me out of my comfort zone when it came to teaching, but it was very necessary. I also appreciated Desi's encouragement for us to think critically and ask questions when it came to things we were learning in class. There were definitely moments in the course where I had to think on my feet and solve problems regarding my teaching site and Desi was always there for me in that process.
- Yes I felt I was challenged but I still was able to learn in a safe and comfortable way.

- 2.10) Diverse and non-dominant perspectives (e.g. BIPOC, disabled, LGBTQ+) were appropriately considered in this course.

(This could include curricular content, invited speakers and guest artists, critics, and/or student work as regards practices, aesthetics, histories and theories.)

- 2.11) Please give the reasons for your rating in response to the above prompt.

- I loved the class and the overall engagement I thought the class was super helpful overall
- Our groups are always super diverse.
- We were always taught to think about what might accommodations look like, how can we make our plans more accessible to others when we created and partook in activities.

3. Comments:

- 3.1) Do you have any additional comments?

- Desi is the most fantastic teacher I've ever had in my whole life. I wouldn't want any other person to teach me about arts education. She would be a true asset to any arts education program. I'll remember

my learning experiences with her forever.

- Dr. Desi is simply the best teacher I have ever had.
- I love Desi!!! I'm very sad that this series of courses is going to be over soon, I'll miss everything about this class and the people in it.
- In almost nine quarters that I have taken here, I think Professor Desi will probably be one of the ones who impact how I learn and how I teach the most. She and the course have led me to grow as a person. I can only express my deepest thanks to Desi for opening up a world of opportunities that I didn't know I could even attain.
